## Budget Channel outdoor blinds

Budget Channel Outdoor blinds are crank controlled, making them a great cost effective option to close your alfresco from the elements. We use 1% or 5% open Atmosphere mesh fabric or clear or tinted PVC fabrics for a quality finish. Channel blinds fabric sits inside a channel but isn't attached inside the channel, keeping the cost of the product down.

Channel Blinds can be motorized too, controlled by a remote control at an additional cost.

## Urban Track Outdoor blinds

Urban Track is a Western Australian designed and made outdoor channel blind. Urban Track will close in your alfresco and has three control options. Crank controlled, motorized or spring assist lift. See the Urban track webpage for more info.

## Ziptrak Outdoor blinds

Ziptrak is the top of the range outdoor blind on the market. The fabric is attached inside the channels preventing insects entering your alfresco when closed. Ziptrak can be easily lifted open with one hand up to 6000mm in width. You can also motorize ziptrak using a remote control. Please see our ziptrak webpage for more info or book a free quote. There are lots of amazing features with ziptrak,

## Motorized Outdoor blinds

We use Alpha motors to compliment our outdoor blinds range. Alpha remote controls are easy to use and have a 5 year warranty.

## Rope & Pulley Outdoor blinds

Swan Blinds Rope and Pulley Outdoor blinds are a cost effective option to enclose your alfresco. We offer custom-made locking base-rail blinds to your exact size specifications. Our Rope and pulley outdoor blinds are made from German made Atmosphere fabric with 5% or 1% open weave, or clear or tinted PVC.

## Outdoor blinds fabric

We use German made Atmosphere fabric for our outdoor blinds. Shann Atmosphere fabric is made to a high quality and comes with a 5-year warranty. It's a strong mesh and is available up to 6000mm width. Color range can be seen above.
