Perth Vertical blinds Fabric

At Swan Blinds we only offer the best fabrics for our Vertical blinds in polyester Blackout fabric. All our fabrics are PVC free and Lead free. All of our vertical fabrics can also be used to make Roller Blinds to match if you need both types of blinds. Our Vertical blinds fabrics are washable and easy to clean too.

Why choose Vertical blinds by Swan Blinds?

At Swan Blinds we manufacture the Vertical blinds in our factory in Malaga. We always have lots of fabric and tracks in stock so we can install the blinds faster than most blinds companies in Perth. Choose from two track styles V40 (Slim track) or V28 (most popular track in Perth). Both the V28 and V40 tracks can either have a wand control or cord control giving you more opening options e.g. Centre opening, Centre bunching, left or right bunch.

Choose how we finish your Vertical blinds

At Swan blinds you have the choice of 89mm or 127mm slats. Verticals 89mm is popular on sliding doors or in windows with narrow recess. But 127mm slats are a slightly cheaper option.

Swan Blinds also make pelmets for Vertical blinds

Finish your vertical blind off with a 89mm or 127mm pelmet. PVC pelmets are available in several colors and have space to insert fabric to match your blind.
