Zebra blinds are a unique option to dress the windows in your home

Swan blinds Zebra Blinds are manufactured in Perth, using both sheer and light filter or block-out fabric. This modern style of blind is simple to use with a cord loop control, tensioned for child safety.

Zebra blinds are one of the newest additions to the swan blinds range of blinds but have been quite popular in Perth.

Zebra blinds roll up like a roller blind but act more like a Venetian blind.

Zebra blinds take two layers of fabric, sheer and block out or light filtering fabric creating stipes. When the blind is part open you can see through the sheer fabric, Zebra blinds can also close to block out the light or be rolled up like a roller blind.
