## Panel Glides by Swan Blinds

The panel glide track brings style and functionality to panels, by providing both traditional hook and look bars, or the more contemporary aluminum bars for fast seamless appearance. Offering both cord and wand operation, top/reveal and face/outside mounting options in a wide range of colors. Blinds can be made with four control options including left bunch, right bunch, center bunch or center opening. Wand control is the most popular in Perth.

Panel Glide Track colors are available in four standard colors as seen below.

## Benefits of Swan Blinds premium Panel Glide blinds

- Powder coated fixing brackets in durable spring steel compound.
- Two, three, four & five fabric panel attachment tracks.
- Ability to achieve center or one way opening.
- Choice of cord or wand operation
- Aluminum panel bar with spline fabric attachment
- Attractive PVC panel bar extrusion with touch tape

We offer a choice of two systems, Slim track or Premium track Panel Glide.

### Premium-Track

Our premium Panel glide blinds are available in two, three, four or five fabric panel attachment tracks. Offering both cord and wand operation, blinds can be opened in one direction or opened from the center. This premium track system is a much bigger track system than the slim version.

### Slim-Track

Our slim track Panel glide blinds are available in two, three, four, five or six fabric panel attachment tracks. Offering both cord and wand operation, blinds can be opened in one direction or opened from the center.
